**I have been making regular visits for over a year now to the Cleveland Clinic for ophthalmology and endocrinology related health issues including eye surgery. I have on each occasion availed of the highly dependable and professional services of Bounit Brothers (Mustapha) to transport me from airport to the Cleveland clinic for my appointments and return to the airport. Their fleet of cars are well maintained, clean and very comfortable.**

**On each and every occasion Bounit Brothers have provided me with the most reliable service and have gone out of their way to make my visit pleasant. On several occasions Mustapha has also helped me with hotel reservations. I know I can always rely on them and would have no hesitation whatsoever in recommending them to clients of Cleveland Clinic.**
